Discussion of approach mains to the 85.82 acre area and the area to the north was held. It was brought out one approach main would be approximately \$53,000.00, of which the owners will be required to pay 25%; the rest of the lines would be wholly within the owner's property. MR. W. T. WILLIAMS, JR., representing the owners, explained the application for annexation was vague, and it was the intent to apply for annexation of both sides of the road. He explained Section 1, consisting of 100 lots. When they are developed, the next 200 acres would be likewise developed for the use of this line, which could be extended to serve an area where the school expects to build soon. He stated this approach main would ultimately serve a thousand acres which are rapidly developing.

INCORPORATION OF SAN LEANNA

The City Manager had submitted data to the Council regarding the San Leanna incorporation. It would be 15 to 20 years before the City could extend to this area for annexing. Servicing the area would be difficult and expensive. Should the area incorporate, it should be limited to the actual application and not have any extra-territorial jurisdiction. Mr. E. H. Smartt represented the San Leanna area. After discussion, Councilman Gage moved that the Council instruct the City Manager to have the City Attorney draw up the necessary resolution to allow San Leanna to incorporate with those limitations discussed this morning: (1) That the area be limited to its application - 238 acres; and (2) That they not have any extra-territorial jurisdiction, the City Attorney to draw a contract to that effect. DISCUSSION OF POLICE DEPARTMENT SALARIES AND ACROSS THE BOARD RAISE

MR. COY WEBER, member of the Police Department presented figures covering many facets of the Police Department -- ratio of police to population; percentage of crime increase comparison with other cities; salaries of the cadets, patrolmen and those with three years' experience and related data. As to increasing salaries of this group, he suggested rather than a percentage raise than an across the board raise be given. Councilman Johnson pointed out Austin had a low percent increase in crime partly because of the training program and leadership in the Police Department. Comparisons with Police Departments in other cities showed Austin above the average. He stated this is the first time since the late 1940's that the Police Department had its complete authorized strength. Councilman Johnson agreed the police need a raise, and pointed out the other city employees also need an increase. He noted the Council had gone on record on numerous occasions to support the Police Department, and asked Mr. Weber to have confidence in the management and Council, who will do everything possible to ease the situation. Mayor LaRue pointed out that the Police Department had provided the City and community a tremendous service, and the Council recognizes and appreciates it, and this would be considered. There were some 4,000 other employees to be considered also. Councilman Janes commended Mr. Weber on his fine presentation, and stated this Department in the very near future would be considered.

REQUEST FOR STREET SIGNS

REVEREND S. L. DAVIS, Mt. Calvary Baptist Church, asked for direction signs to his Church at 2111 Washington Street. He also reported that the street was hazardous. The City Manager, Mr. Andrews, asked Reverend Davis to get in touch with him, and he could come up with some recommendations for the Council next week.

GENERAL CITIZEN OBSERVATION

Councilman MacCorkle suggested having alert citizens drive around the City from time to time to observe, and get some reaction as to what needs to be done. There might be some good ideas expressed.

REPORT ON TRIP TO SALTILLO

Mayor LaRue made a report on the trip to Saltillo, the Sister City, stating the hospitality afforded the group was beyond anything they had heard. Saltillo is no longer an agricultural, cattle town, but an industrial city. Mayor LaRue stated Austin anticipates inviting an official group from Saltillo to visit here.

PAVING BEING RELOCATED

Councilman Gage reported a telephone call from MRS. BENTON, residing near Becker School, stating construction men had laid forms, excavated, and started pouring concrete sidewalks. They returned the next day, pulled up the forms and told her they were going to build the sidewalks some other place. The Deputy City Manager stated this information had not reached their office, but they would check into what had happened.

Later in the meeting, Mr. Jim Nitschke, representing his sister, Mrs. Mary Alice Huston, stated it was discovered they would need "B" zoning instead of "BB", as there was a discrepancy in the application. The Highway Department needs this property. The Council referred to the zoning Case No. 123, Waller and East 16th Streets, from "A" Residence to "BB" Residence to the City Manager to work out, as under the

requested zoning the applicants could not get a building permit to move a residence to the lot so that this property could be released to the State Highway Department.

RECONSIDERATION OF ZONING APPLICATION
C14-69-61 - MR. WESLEY PEARSON

The Council had before it a request to reconsider the zoning application of MR. WESLEY PEARSON, only as it concerned right of way. Mr. Pearson discussed his problem of dedicating 5' sidewalk and utility easement, on Post Road, stating the easement would come through his building. The Director of Planning stated he had personally checked this situation and the location of the utility poles are approximately 7 to 8' off the building line of the building. Every indication shows that the 50' right of way extends to within 7 to 8' of the building.

After discussion, and on the City Manager's recommendation, Councilman Gage moved that the Council grant the request, subject to dedication up to the south building line not to exceed five feet. The motion, seconded by

Councilman Janes, carried by the following vote:

Ayes: Councilmen Atkison, Gage, Janes, Johnson, MacCorkle, Price,
Mayor LaRue
